- **Seating Capacity:** 4 to 12 passengers depending on model.
- **Usage:** Ideal for rescue operations, leisure boating, marine tourism, and adventure sports.

Product Details:

Deck Type	V Type
Manufacturer	Prisha Marine
Engine Type	Outboard
Fuel Capacity	100 to 500 liters
Navigation System	GPS, Radar, Sonar, or Auto-pilot

Hdpe Pontoon

An **HDPE pontoon** is a floating platform made from **High-Density Polyethylene (HDPE)**, known for its durability, buoyancy, and resistance to corrosion. These pontoons are commonly used for **docks, floating bridges, fish farms, and recreational platforms**. HDPE pontoons are lightweight yet strong, capable of withstanding harsh weather conditions, UV exposure, and chemical damage.

They are modular, allowing easy assembly and customization for different applications. Their non-slip surfaces ensure safety, while their maintenance-free design makes them a cost-effective alternative to traditional floating structures. HDPE pontoons provide a stable, eco-friendly, and long-lasting solution for various marine and waterfront needs.

- **Material:** High-Density Polyethylene (HDPE), UV-resistant and impact-resistant.
- **Load Capacity:** Designed to support heavy weights with excellent buoyancy.
- **Modular Design:** Interlocking system for easy installation and scalability.
- **Applications:** Floating docks, walkways, fishing platforms, jet ski docking, and event stages.

Product Details:

Color	Blue, or Custom colors
Country of Origin	India
Surface Finish	Smooth
Thickness	8 mm to 20 mm
Buoyancy Capacity	Up to 3000 kg per pontoon

Outdoor Park Equipment

Get **Outdoor park equipment** includes a variety of structures designed to enhance recreational spaces and promote physical activity. Common equipment includes swings, slides, seesaws, climbing frames, and monkey bars for children, while **fitness stations, benches, gazebos, and picnic tables** cater to all age groups. Materials such as steel, HDPE, and wood ensure durability and weather resistance.

Some parks feature themed play structures, sensory play areas, and interactive elements for inclusive play. Safety features like rubberized flooring and rounded edges reduce injury risks. Well-designed outdoor park equipment encourages social interaction, exercise, and enjoyment, making public spaces more engaging and functional.

- **Range:** Swings, slides, seesaws, climbing structures, merry-go-rounds, benches, and play systems.
- **Material:** High-quality FRP & metal with weather-resistant coating.
- **Customization:** Available in various colors, themes, and sizes.
- **Usage:** Suitable for parks, schools, playgrounds, and resorts

Product Details:

Customization Option	Can include benches, Shaded areas, and Landscaping element
Manufacturer	Prisha Marine
Weight Limit	Max load 150 - 500 kg
Age Group	Equipment designed for children, Teens
Finishing	Powder coated

- **Material:** High-quality **FRP & HDPE**, ensuring corrosion resistance and longevity.
- **Customization:** Custom designs, sizes, and themes available as per client requirements.
- **Safety Standards:** International quality and safety-compliant structures for all age groups.

Product Details:

Surface Finish	Polished
Style	Modern
Material	High-density polyethylene, fiberglass
Country of Orgin	India
Used For	Amusement parks, Resorts

FRP Products

FRP (Fiber Reinforced Plastic) Products for Parks and Recreation

FRP products are highly durable, lightweight, and resistant to weather and corrosion, making them ideal for parks, playgrounds, and water attractions. These products enhance aesthetics, functionality, and safety while requiring minimal maintenance.

- **FRP Park Entrance Gate** – A strong and elegant entry point designed to withstand harsh environmental conditions while adding visual appeal.
- **FRP Park Train** – A fun and safe transportation option for children and families, offering smooth rides and long-lasting performance.
- **FRP Park Gazebo** – A stylish and weather-resistant shaded structure that provides relaxation and enhances park aesthetics.
- **FRP Elephant Slide** – A vibrant and engaging playground slide shaped like an elephant, designed for safety and imaginative play.
- **FRP Giraffe Slide** – A tall and playful slide resembling a giraffe, encouraging physical activity and creativity in children.

These FRP products enhance outdoor and recreational environments with their strength, longevity, and low maintenance, making them a smart choice for parks and amusement areas.

- **Range:** FRP tanks, domes, benches, portable cabins, gratings, doors, and roofing sheets.
- **Properties:** Lightweight, corrosion-resistant, weatherproof, and highly durable.
- **Customization:** Size, color, and specifications tailored to industry needs.
- **Usage:** Suitable for construction, marine, industrial, and architectural applications.

Product Details:

Design Type	Eleplant, Giraffe-themed slide
Maintenance	Low maintenance, Easy to clean
Quality	Best quality
Train Engine Type	Electric or Diesel Engine
Slope Angle	30° to 45° custom
